UPCOMING LUNCH & LEARN: CYBERSECURITY MATURITY MODEL CERTIFICATION PROGRAM (CMMC)

HOSTED BY

**YOU ARE INVITED TO ATTEND A LUNCH & LEARN EVENT
PUT ON BY THERMTECH AND REVERENTIA CYBERSOLUTIONS**

Thursday, October 22 | 11:00 AM - 2:00 PM | Marriott – Milwaukee West Hotel

Learn about the new Cybersecurity Maturity Model Certification program (CMMC) that mandates that Department of Defense contractors and subcontractors have their cybersecurity posture certified by an independent third-party in order to be able to work on new DoD contracts.

THE CMMC FRAMEWORK INCLUDES SUBJECTS LIKE:

- Cybersecurity Controls
- Processes & Practices
- Corporate Cybersecurity Culture
- Cybersecurity Training
- Third-Party Service Providers and Cloud services
- Flow-Down Requirements for your Subcontractors and Supply Chain

The last point is critical for your business and ours. If you want to be part of the manufacturing supply chain for any DOD program, you need to be aware and will likely need a CMMC certification. For this event we are limiting one employee per company response. Should we have an overwhelming response we will consider doing another Lunch & Learn on this topic.

PLEASE DIRECT ANY QUESTIONS OR RSVP TO:

Jason E. Kupkovits, Vice President - Sales & Strategic Direction
ThermTech - Heat Treating Specialists

Office: 800-752-6917 | Mobile: 262-993-1878

Email: jkupkovits@thermtech.net

**RSVP BY 10/15 TO
ENSURE YOUR SEAT**
